

Optical Isolators & Circulators

Free Space Isolator

- Low PDL
- High channel isolation
- High return loss
- Single stage and dual stage for option.
- 1310/1490/1550nm etc

In-Line Optical Isolator

- High isolation and low insertion loss
- $\varphi 5.5 \times 35\text{mm}$ compact size
- Used for DWDM/CWDM, EDFA Application

Pigtail Free Space Isolator

- High isolation and low insertion loss
- 1310nm / 1550nm
- Used for OSA package and optical transmitter

Optical Circulator

- High isolation and low insertion loss
- Low PDL & PMD
- $\varphi 5.5 \times 50$ / $\varphi 5.5 \times 38\text{mm}$ stainless steel tube compact size
