

100G QSFP28 PRODUCT TRANSCEIVERS

100G QSFP28 SERIES

Opway's 100G QSFP28 series transceivers designed for optical communication applications with data rates up to 103.1Gb/s . At present, the 100G SR4 and LR4 were mass production, and the 100G ER4 and ZR4 are starting mass production.

Features

- Supports 103.1Gb/s and 112Gb/s aggregate bit rates
- Maximum link up to 80km on SMF
- Built-in digital diagnostic functions
- MPO-12 / Dual LC receptacles
- RoHS 10 compliant (lead free)
- Operating temperature range:0~70°C
