

400G LR8 PRODUCT TRANSCEIVERS

400GE QSFP-DD LR8

OPDJ10 is Opway latest research and development of the 400G transceiver. The optical module uses QSFP-DD form factor with duplex LC connector, data rate up to 425Gb/s and up to 10km transmission.

Features

- Hot pluggable QSFP-DD MSA form factor
- Compliant to IEEE 802.3bs
- Supports 425Gb/s aggregate bit rate
- Single +3.3V power supply
- 425G up to 10km on SMF
- Operating temperature range: 0~70°C
- Built-in digital diagnostic functions
- RoHS compliant (lead free)
