

B&A passed the qualified supplier audit of FiberHome

April 22 solstice 23, FiberHome TQC audit team to B&A in Shanghai EDFA production base audit. The audit content involves three aspects: QPA and CSRA audit (quality process audit and corporate social responsibility); Product line automation and capacity.

B&A's production base in Shanghai has been established for more than 10 years. After many times of expansion and upgrading, the current production base has a construction area of about 4,000 square meters, with 8 independent EDFA product lines, all equipped with industry-leading automated production equipment and MES management system, to ensure the high efficiency and high quality output of each product line. The production base currently has a maximum daily capacity of 1,000 units.

On the afternoon of April 23rd, the leader of the audit team, announced that B&A met the qualified supplier conditions of FiberHome and passed the audit smoothly. He thanked B&A for its strong cooperation with the audit. He pointed out that in this audit, B&A's EDFA product line has a very high level of automation, the production capacity is beyond FiberHome's expectations, the use of MES management system, quality management and traceability have a great advantage, expressed confidence in the cooperation with B&A.

Fiberhome is an outstanding product and solution provider in the industry. We are very proud to be a qualified supplier to them. B&A may create a new EDFA product line for FiberHome to quickly respond to its production needs. We will also strive to explore opportunities to collaborate with FiberHome in more areas.

In 2015, B&A entered ZTE's list of qualified suppliers. Today, B&A has become Fiberhome's qualified supplier. B&A will continue to make efforts to establish good cooperative relations with major telecom companies around the world.
