

### Third One

**Title:** We were in CCBN on May, 2021

**Content:**

At the end of May in 2021, we've participated in the CCBN conference held in Beijing, China. This meeting is mainly about Broadcast, Radio and Television equipment display.

Tianjin Wenhao Technology and Development Co.,Ltd, as one of the important exhibitors, brought the brand-new & high-tech products into the show, and received a good feedback during the meeting.

The below picture showed the live stream on TikTok.

## 1625nm FTTH PON OTDR

独立载波1625nm波长设计  
 可通过两级光分路器在线测试  
 快速区分衰减事件和反射事件  
 弱光调整必备的PON-OTDR  
 集成光率计、红光源功能  
 操作简单一键测量

### 设计初衷

天津文豪公司依据对 FTTH 网络的充分了解, 对比高端OTDR的波长组合。根据载波波长的不同, 采用单一的1625nm波长研发设计出专用于FTTH网络的 PON OTDR。

替代了市场上多波长PON OTDR (1310/1550/1490/1625nm) 的产品, 是弱光调整的专业工具型的PON-OTDR, 并配有光功率计和红光的功能, 用于新建网络可进行迅速可靠的检测, 对已建网络进行快速的故障查找, 从而节省您的组网/网络维护的时间, 也就意味着节省了工作中的人力和采购成本。
